Tej Prakash Carpenter

Profile

Currently pursuing Master of Computer Applications, a specialization in Computer Applications, I am eager to leverage my academic foundation to excel in the tech industry. My coursework equips me with a solid understanding of core software principles. I am particularly interested in exploring opportunities in software development. I am dedicated to honing my skills, staying current with industry trends, and contributing to innovative projects.

10th Standard

- 🏛 JNV Panghata, Narwar District Shivpuri, Khyawada, Madhya Pradesh
- 📅 2018 - 2019 • High School

Projects

FoodyDipti

[Project Link](#)

Next.js App Router application for an influencer/admin to upload recipes and for users to browse and save favorites.

AgroTech Dashboard - Agricultural Drone Management Platform

[Project Link](#)

AgroTech Dashboard is a comprehensive agricultural drone management platform that provides farmers with powerful tools for field monitoring, automated mission planning, crop analysis, and weed detection. The application uses modern web technologies and machine learning to optimize farm operations and improve crop management.

Trash Pickup Game

[Project Link](#)

A real-time multiplayer game that encourages environmental awareness by gamifying trash collection. Players can join rooms, submit their trash pickups, chat with other participants, and compete on the leaderboard.

Achievements

CUET 2024

Scored 224 marks out of 300.

NIMCET 2024

Secured AIR 63.

MAH-MCA-CET

Secured 100 percentile.

Responsibility

AAYAAM

Deputy Manager

Was a member of a non-technical club, AAYAAM: the Hindi cell of NITT. I played an important role in organizing several events held by this club like Umang and Dandiya-night. To be specific, I used to design posters for upcoming festivals, edit videos and build and manage decoration with other members of the team.

Version

PPC member

Key member of the Printing and Publishing Committee for Version, where I designed posters, t-shirts, book-covers, invitations, and promo videos. Collaborated across multiple teams, gaining valuable teamwork and event management experience.
